**Present:** Mayor David M. Nussbaumer, and Trustees Lloyd A. Green, Donald Sinclair, Donald Leysath, Frederick Alderman. Operator of the Water & Sewer Plants, Hiram VanEtten, Village Attorney, Henry B. Nesbitt. Visitors, Lois Lynch, Fayette St., and Robert Bender, Hathaway Place.

**Vouchers:** On motion by Trustee Leysath, 2nd by Trustee Sinclair vouchers in the amount of \$14,580.78, and carried were approved for payment.

**Hershey & Malone :** A representative of Hershey & Malone, Consulting Engineers in Rochester, Mr. John Sunday, (in place of Tony Malone) conferred with the Village Board relative to a suggested figure or rate that the Village of Palmyra might charge the Town of Palmyra, if the Village of Palmyra might allow the connection of sanitary sewers to the Canandaigua Road district in the Town of Palmyra immediately south of the Village. A brief discussion mentioned by Mr. Sunday, a possible master meter, might be a means of assessing a fee or rate. He was advised that the village current rate is based on water consumption for a unit of \$17.28 for usage of 500 to 4,000 cubic feet of water per quarter. It is to be assumed with the alterations to the sewage disposal plant, an increase of approximately \$4.00 per quarter can be anticipated. If the village were to agree to allowing the Canandaigua Road District to connect to the village mains, the Town of Palmyra would be responsible for laying their lines, together with assessing the property to meet any additional costs over and above the lines. The board agreed to confer later to determine an equitable figure or agreement.

**Police Rpt. :** The Police Report as submitted by Police Chief Henry for the month of August, 1971 indicated total fines and bail forfeitures collected for the month for motor vehicle and criminal offenses totalled \$50.00. 196 complaints were investigated along with other matters including 18 accidents. Of the 16 Criminal Matters, 4 were for assault 3rd degree and of the 14 motor vehicle arrests, 4 were for speeding.

**Woodward Assoc. SEWER BIDS :** Olgerts Sniedze, Woodward Associates, Consulting Engineers, Webster, New York, informed the village board that bids for the alterations and additions to the Sewage Disposal Plant were opened on September 2, 1971. After a review by the engineers, the bids were sent to Mr. Henry B. Nesbitt, Village Attorney for his perusal. Attorney Nesbitt concurred that the low bid in all phases of the anticipated work, general contracting, plumbing, heating and ventilating and electrical, could be awarded to Frank J. Marianacci, Inc., 7400 Eddy Road, Holcomb, New York for a total sum of \$466,099.00. A formal resolution is a part of these minutes.

**Resol.:**

- Woodward Assoc. :** O. Sniedze commented that Woodward Associates had interviewed Frank J. Mariannaci to learn that actually, they had not done this type of work, but should they get the bid, they planned to sub-contract the work. O. Sniedze further emphasized that they, Woodward Associates, would have control of the sub-contractor.
- Pressure Sus. Valve:** O. Sniedze advised that the installation of the Pressure Sustaining Valve was complete with the exception of painting pipes in the lower level, which, due to constant sweating, has made it practically impossible to accomplish. For this reason, the contractor, Clohessy, Inc., has offered a \$500.00 credit or a reduction on the contractual agreement of \$10,355.00 or a payment of \$9,855.00 for the installation. The following motion was made by Trustee Leysath, 2nd by Trustee Sinclair, and carried:
- \$500.00 Credit Offered**
- Brd. Resolves:** **RESOLVED:** Whereas Clohessy, Inc., contractors for the installation of the pressure sustaining valve for a bid price of \$10,355.00 have offered to reduce the figure to \$9,855.00 or a \$500.00 credit due to the constant sweating of the pipes making it impossible to paint as agreed,  
**BE IT RESOLVED THAT:** The Village of Palmyra accept the offer of Clohessy, Inc. of a \$500.00 credit on the bid price of \$10,355.00.
- Clerk of Works :** Trustee Sinclair interjected that with the letting of the contract for the alterations and additions to the sewage disposal plant, it would be his feeling and he felt that it was the intent of the board to hire a "Clerk of the Works", a person who would have engineering background and be able to devote full time to overseeing the work of the contractor, and be a liaison between the Village Board and the Consulting Engineer, Woodward Associates. He further advised that it was his understanding that 60% of this person's salary would be reimbursed by federal and state funds.
- Supervise Alter. & Add. to Sew. Plant:**
- Water:** Hiram VanEtten informed the board that Garlock Inc. takes mostly raw water from the line. Attorney Nesbitt queried, "Does the village have sufficient portable water?" H. VanEtten replied that the village does have sufficient. The biggest expense, he added, is for the chlorine, acid and back-washing.
- Stafford Hts. Resol. for Ease. :** Motion was made by Trustee Green, 2nd by Trustee Leysath to grant permission to the Mayor, David M. Nussbaumer to sign the quit claim deed in behalf of the Village of Palmyra to grant easements for storm sewer on Lots #18 and #19 in the Stafford Heights Track. Motion carried. (Resol. attached hereto.)

**Griffith Gift:** Motion was made by Trustee Sinclair, 2nd by Trustee Leysath and carried to accept the gift of the property belonging to Mrs. Agnes Griffith, known as the Fay Spencer residence at 118 William Street. Attorney Nesbitt, in a letter, commented that there exists an easement "for the purpose of installing and maintaining a pipe line for the transmission of gas from William Street along the northerly edge of the parcel of land." He further commented that the easement is not defined in width and in the event of a building, a problem might arise.

**Pressure Sus. Valve:** H. VanEtten commented that the pressure sustaining valve is not in operation because Garlock, Inc. is taking more water and the Village of Palmyra is taking less.

**Adjourn:** The following motion was made by Trustee Leysath, 2nd by Trustee Sinclair at 9:30 P.M. and carried:

VanEtten informed the board that there is an abundance of overgrowth and while it would be expensive to bury the line, in the long run, there would be an advantage.

**C. Richardson:** Advised the Village Board that there is a drop-off in front of his property at 310 East Foster St. Trustee Alderman informed him that back fill and black top work would be done. Approximately 8 merchants, Chief Donald Henry, and Peter Stirpe. Merchants advised they had loitering problems. Sgt. Stirpe advised that if a man posts bail, he can walk out to street. Many live in Main Street downtown area. Village Attorney Nesbitt commented that the problem is not person out on bail but one who is a nuisance. What can you do if he is? General discussion indicated that a person can be arrested or picked up only if one has committed a crime. There is no loitering ordinance in village and is unconstitutional according to Attorney Nesbitt. Unless these culprits really harass a citizen and the citizen files a complaint, nothing can be done. According to new law, a judgment must be levied within 6 months or case will be dismissed. (No visitors).

A discussion of replacing parking meters. Charles Collie asked if meters could be replaced. Board advised that it would cost too much to repair meters.
