ILLEGAL PARKERS WARNED !

Numerous complaints have been made to the local police department and to the Village Board concerning the illegal parking of motor vehicles in the street in front of people's driveways and in some instances parking in private driveways. The Vehicle & Traffic Law of the State of New York and the local parking ordinances forbid the parking of a car in the street in front of any driveway which prevents the free use of the driveway, and further provides a fine for violation of this provision. The Police Department wishes to take this opportunity of reminding the public that such parking is forbidden and that unless this practice is discontinued, it will be necessary to enforce the provisions of the above law and ordinances to enable people to enjoy the use of their own property.
